

Int. 29er Class Resolution Submission | 2017

Number 17-04
Received: 22/06/17

Submitted by: 29er Class President Joan Mollerus

Proposed Resolution:

The International 29er Class shall conduct an annual, online survey of members and interested parties regarding the class, equipment and championship planning and management. The survey will be conducted and managed by the Executive Committee and the Executive Director. Results of the survey shall be made available to the class in a reasonable time after the survey is complete.

Reasoning:

The Class should avail itself of the opportunity to reach its members and interested parties to seek input and feedback about topics that are relevant to Class management, equipment development, and the interests of the membership. Our annual Sailor's Forum, which takes place during the World Championship, is an important forum for our sailors, but does not allow the same depth and breadth of feedback that an online survey would achieve.

For items that affect the Constitution or Class Rules, a Special Resolution must be submitted to the World Council:

Reference any and all Constitutional or Class Rules that may be affected by this proposal.

Resolutions may be submitted by a National Class Association or member of the World Council. These must be submitted to the 29er Class office 6 weeks prior to the World Council meeting.
